	Science	Other
How much interest do you anticipate your results to generate? Mark "low" if your results are only of interest to other experts in your field. Mark "medium" if your results are of interest to a particular group of stakeholders (e.g., fishermen) and a broader scientific audience. Mark "high" if your results may generate wide public, media, or Congressional attention. Also, please mark "high" if your paper will appear in Nature, Science, or the Proceedings of the National Academy of Sciences.	Low	
	Med	
	High	
Communication Assistance Request We recommend you ask for assistance if you expect your paper will generate medium or high levels of interest/controversy or is one of the listed journals that require rollouts. If in doubt, reach out.	Yes	No
Will your article be Open Access?	Yes	No
Technical Reviewer's name, affiliation, email. NOTE: Include a copy of reviewer's comments and author's response.
